

Daisy literature

Per Abrahamsen

January 5, 2021

This note is intended to provide an overview of papers that concerns Daisy. The papers are listed up to three times, first organized by type, then organized by subject area, and finally organized by funding project. The papers are listed in reverse chronological order. Only papers that represent a significant deployment or development of the model are included. Still, most papers are likely missing. Please send missing references to daisy@daisy-model.dk.

Overview by type

Peer reviewed articles

- Vuaille, Jeanne, Omar Daraghmeh, Per Abrahamsen, Signe M. Jensen, Søren Kirkegaard Nielsen, Lars J. Munkholm, Ole Green, and Carsten T. Petersen (n.d.). “Wheel track loosening can reduce the risk of pesticide leaching to surface waters.” In: *Soil Use and Management* n/a.n/a (). ISSN: 1475-2743. DOI: <https://doi.org/10.1111/sum.12641>. URL: <https://onlinelibrary.wiley.com/doi/abs/10.1111/sum.12641>.
- Groh, Jannis, Efstathios Diamantopoulos, Xiaohong Duan, Frank Ewert, Michael Herbst, Maja Holbak, Bahareh Kamali, Kurt-Christian Kersebaum, Matthias Kuhnert, Gunnar Lischeid, et al. (2020). “Crop growth and soil water fluxes at erosion-affected arable sites: Using weighing lysimeter data for model intercomparison.” In: *Vadose Zone Journal* 19.1, e20058.
- Groh, Jannis, Efstathios Diamantopoulos, Xiaohong Duan, Frank Ewert, Michael Herbst, Maja Holbak, Bahareh Kamali, Kurt-Christian Kersebaum, Matthias Kuhnert, Gunnar Lischeid, Claas Nendel, Eckart Priesack, Jörg Steidl, Michael Sommer, Thomas Pütz, Harry Vereecken, Evelyn Wallor, Tobias K. D. Weber, Martin Wegehenkel, Lutz Weihermüller, and Horst H. Gerke (2020). “Crop growth and soil water fluxes at erosion-affected arable sites: Using weighing lysimeter data for model intercomparison.” In: *Vadose Zone Journal* 19.1, e20058. ISSN: 1539-1663. Overview by project

Daisy literature divided by associated project. As some papers describe worked funded by multiple projects, there are some overlap. Most papers have not yet been classified by project.

MST-Markdræn

- Hansen, Søren, Per Abrahamsen, and Carsten Pederen (2010). *Daisy 2D simulation of Silstrup and Estrup*. Tech. rep. University of Copenhagen.
- Hansen, Søren, Carsten Pederen, Per Abrahamsen, Marie Habekost Nielsen, and Mikkel Mollerup (2010). *Daisy 2D simulation of Rørrendegård*. Tech. rep. University of Copenhagen.
- Gudmand-Høyer, Nanna (Nov. 2008). “2D-modelering af vandtransport i jord.” University of Copenhagen.
- Hellsten, Tilde (Aug. 2007). “Vand- og stoftransport til grundvand og markdræn belyst ved udvaskningsforsøg og Daisy-modellering.” University of Copenhagen.

SAFIR
